*Motion not made for approval of September 24, 2021 or November 17, 2021 Meeting minutes due to Quorum not complete. Will review again at the January meeting.

Topics discussed during the Project Timeline update were: The 30 day burn-in period has begun for some agencies. Not all agencies taking part due to issues during the DAQ testing period. TrueNorth advised that only minor issues left at the site on their end. RACOM has some interop equipment to install at the tower sites.

Fleet map update had nothing new to discuss.

Delivered Audio Quality (DAQ) testing was done the week of December 6th on both the Illinois and Iowa side. A few buildings failed testing and solutions are being worked on now and the need to work with private and public sectors to get them up to standard. Tested over 100 sites on both sides.

No Requests for Service Agreements were voted on due to Quorum not complete. A brief discussion about the agreements was had. Will move to vote on agreements at the next scheduled meeting.

During the public comments section a question was asked about scanning. Brief discussion between RACOM, TrueNorth, and the Committee on solutions to making that work between the current system and the new system. No other public comments or other business was discussed.

The next meeting is scheduled for Wednesday, January 26, 2022, at 2:00 P.M.
